

# The Gates of St. John

The concept for *The Gates of St. John*, calls for a series of mixed-use neighborhood enclaves within the larger community. A pedestrian friendly neighborhood - where homes, a Christian grade school, retail space and a retirement home with assisted living all come together and are designed to appeal to consumers who are looking for a simpler lifestyle.

Here in a peaceful enclave, residents are surrounded by a beautiful natural environment. Tree lined streets, parks, community recreation areas and miles of trails grace *The Gates of St. John*.
